**Agreement in Lieu of for Erosion and Sediment
Control of a single-family residence**

I _____, herby understand that In lieu of submission of an
(Please Print)

Official Erosion and Sediment Control Plan, I agree to comply with **Alleghany County's Erosion and Sediment Control Ordinance**. These requirements shall be based on the conservation standards contained in the Virginia Department of Conservation and Recreation's, Erosion and Sediment Control Handbook.

As a minimum, I understand the following measures must be addressed:

1. Silt fencing shall be properly installed downhill from any and all disturbed areas and around all soil stockpiles.
2. Construction Entrances consisting of VDOT #1, coarse aggregate stone shall be installed at the access point off any existing public or private Right-of-Way.
3. All denuded areas on the property shall be stabilized with permanent seeding within **7 days** of final grading. If an area is not of final grade but is to be left bare for more than thirty days the area shall be temporarily seeded.
4. Pipe inlet and outlet protection shall be provided around all culvert inlets and outlets.

I understand that periodic site inspections can and will be made by the Alleghany County Erosion and Sediment Control Program Manager or his/her authorized agents to ensure that all E & S measures have been implemented and are adequately functioning. Failure to comply with such requirements within the specified time could result in enforcement actions for violation of the Alleghany County Erosion and Sediment Control Ordinance. Enforcement actions are, but not limited to, "Stop Work Order", revocation of Permit and Legal Action.

By signing this Agreement, you acknowledge that the landowner is ultimately responsible for ensuring that all Erosion and Sediment Control measures are properly installed and periodically maintained. I herby grant permission to enter this property for the purposes of inspection and to my knowledge the information I have provided on both sides of this form is correct and accurate.
